

# Anderson-Foothill Branch in The City Library Facilities Plan

# The City Library: Library Facilities Plan

- Library Facilities Plan Concept Development 2023-2024
  - Anderson-Foothill Branch, Main Library, Ballpark, & create a west-side plan
  - Consultant to implement a community engagement program and concept development plan
    - Analysis of identified locations to prioritize needs for modernization, community impact, and future growth
    - Funding is required for reconstruction, remodel, or building facilities in identified locations
  - Begin late Fall 2023

# The City Library's Civic Infrastructure Model

- ***Realign***

- The City Library's current locations will be optimized to implement the Library's Strategic Plan's 21st century library service model.

- ***Reintegrate***

- The City Library's services and spaces will expand as a values-driven economic development partner, aligned with Salt Lake City growth.

- ***Reimagine***

- The City Library will provide the civic infrastructure—the places, policies, programs, and practices to build community connection and foster equitable and inclusive communities

# The City Library Facilities Plan Vision For Our Future

- The public library is an embodiment of a collective vision of the American dream
  - Provides places and programs where people can engage in the pursuit of happiness together
  - Taps into and builds on its community's civic infrastructure
  - Builds a foundation for generating community trust and cooperation
- In this way, a world class library system can elevate and transform communities.
